

Purpose-Built AI. Built to Think. Designed to Scale.

Powering the Future of Insurance with Generative AI

Enkefalos is a next-generation AI company headquartered in Austin, focused on reimagining the global insurance landscape. Our domain-specific GenAI solutions help insurers streamline operations, enhance decision-making, and drive sustainable growth across underwriting, claims, compliance, and customer service.

The AI Operating System for Insurance

InsurancGPT Models

Fully private, Secure, cost effective Large Language Models (LLMs) built specifically for insurance.

Agentic AI Applications

Ready-to-deploy agents like ClaimsBot, QuoteMate, AuditShield, UnderwriteGen, CX Agents, Renewal AI

Responsible AI Stack

Guardian, ROI Calculator, Data Analyzer - ensure accuracy, monitor hallucinations, bias, PII protection, and help customers evaluate ROI.

Why Enkefalos?

- ✓ **Data-Safe Deployments:** Built with privacy, security, and IP ownership at the core
- ✓ **Domain Expertise:** Deep alignment with insurance workflows
- ✓ **Global Readiness:** Multilingual, regulation-aware, and regionally adaptable
- ✓ **ROI-Focused:** Proven use cases delivering measurable operational outcomes
